RE: Permit by Rule Registration Notification
(Anderson Asphalt Paving – 777-00286)

Dear Mr. Anderson:

On August 20, 2001, the Idaho Department of Environmental Quality (DEQ) received a Permit by Rule Registration form for a Nonmetallic Mineral Processing Plant from Anderson Asphalt Paving.

Your registration for Permit by Rule is registered in our files. Yours is a new crushing facility with no existing air quality permit; therefore, no termination action is required. We recommend that you maintain a copy of this letter and a copy of the enclosed registration form for your records.

Please be advised that the registered equipment must comply with the Rules for the Control of Nonmetallic Mineral Processing Plants in accordance with IDAPA 58.01.01.790 through 802 (*Rules for the Control of Air Pollution in Idaho*). A copy of these regulations can be downloaded by visiting the rules page on DEQ's web site at www2.state.id.us/deq.

Other Air Quality Requirements

If your crushing plant is portable, you will be required to submit a portable equipment relocation form each time the plant is moved to a new site of operations. This form is required to be submitted to DEQ ten days prior to relocating the equipment. A copy of the form is enclosed for your convenience.

If you have any questions regarding this Permit by Rule process, please contact me at (208) 373-0431.

Sincerely,

Daniel P. Salgado
